

fleetriskprofiler.com

Fleet Risk Profiler™ is a unique online process that manages ALL fleet and related risk areas and more at organisational, management and operational levels within vehicle, driver, load, site, journey, delivery, management support and organisational aspects.

**Are you a fleet, logistics or supply chain user?
Do you want to:**

- ✓ **Obtain strategic competitive advantage**
- ✓ **Assess total fleet and related operations**
- ✓ **Benchmark internally and externally**
- ✓ **Implement integrated management system**
- ✓ **Increase control and improve business performance**

then...

**...Fleetriskprofiler™
is for you**

Fleet Risk Profiler™ profiles and risk assesses all your fleet and related risks and is then used to create and implement an organisation-wide fleet risk management system to put you in control.

fleetriskprofiler.com

Use in UK, Europe and Internationally

Risk-based content means the process can be used for site, division and country application within the UK, Europe and Internationally.

Quick cost-effective results

Fleet Risk Profiler™ has new users up and running fast with beneficial and actionable results within one or two days. Downloadable reports (online/PDFs) include a strategic overview, tailored management information, detailed risk managing status and action planning guidance.
